

I CLAIM:

1 1. In an automobile having a vehicle body with a roof,
2 the combination therewith of a frame overlying a portion of said
3 roof with a outline corresponding to that of a sunroof and
4 simulating a sunroof, and at least one member affixing said frame
5 to said roof of said vehicle body.

1 2. The combination defined in claim 1, further
2 comprising a panel affixed to said frame and spanning an interior
3 thereof and simulating a sunroof panel.

1 3. The combination defined in claim 2 wherein said
2 member is an adhesive interposed between said frame and said
3 vehicle roof.

1 4. The combination defined in claim 2 wherein said
2 member is formed by a magnet.

1 5. The combination defined in claim 4 wherein a
2 portion of said frame is magnetic.

1 6. The combination defined in claim 1 wherein said
2 member is an adhesive interposed between said frame and said
3 vehicle roof.

1 7. The combination defined in claim 1 wherein said
2 member is formed by a magnet.

1 8. The combination defined in claim 7 wherein a
2 portion of said frame is magnetic.

1 9. A universal automotive vehicle appearance
2 enhancer, in combination with a vehicle body, comprising a frame
3 adapted to be secured to a portion of said body adapted to span
4 the interior of said frame, a panel within said frame having the
5 appearance of a window on said body, and means for attaching said
6 frame to said body.

1 10. The enhancer as defined in claim 9 wherein said
2 frame overlies a roof of said body and simulates with said panel
3 a sun roof.

1 11. The enhancer as defined in claim 9 wherein said
2 frame is affixed to a side wall of said body and with said panel
3 creates the appearance of a window in said body

1 12. The enhancer as defined in claim 9 wherein said
2 means is magnetic.

1 13. The enhancer as defined in claim 9 wherein said
2 means is an adhesive interposed between said frame and said body.

1 14. The enhancer as defined in claim 9 wherein said
2 panel is composed of glass.

1 15. The enhancer as defined in claim 9 wherein said
2 panel is composed of a plastic.

3 16. The enhancer as defined in claim 9 wherein said
4 panel has the form of a bubble projecting outwardly from a plane
5 of said frame.

6 17. The enhancer as defined in claim 9 wherein said
7 frame has a chromium finish.

1 18. The enhancer as defined in claim 9 wherein said
2 frame is polygonal.

1 19. The enhancer as defined in claim 9 wherein said
2 frame has a curved configuration.

1 20. The enhancer as defined in claim 9 wherein the
2 enhancer forms part of a kit of a plurality of enhancers of
3 different shapes.
